Classification	DOCG

Market Value (in €)

This data refers to the valuation on the regulated wine market Liv-ex.

Actual Price	1 Year Performance	Highest Price 2 Years
104	-16.80%	126

1 Year Performance refers to the price change in the last 12 months. The market value represents the wine price without considering retail margins.

Retail Price (in €)

The price applied by major digital platforms.

When considering to sell a wine consider also the **Retail Price**. Often buyers compare prices applied by major digital platforms.

Vintage Valuation

The vintage quality is crucial when valuating wine. A good vintage increases the drinking window and positively affects the tasting notes.
